Chapter 1

Neutron Star Collision (Love Is Forever) by MUSE

Muse - Neutron Star Collision (Love Is Forever)

I was searching; you were on a mission,

Then our hearts combined like a neutron star collision,

I had nothing left to lose, you took your time to choose

Then we told each other with no trace or fear that

Our love would be forever

And if we die, we die together

and lie, I said never

Cause our love, would be forever

The world is broken, and halos fail to glisten

We try to make a difference but, no one wants to listen

Hell the preachers Fake and proud, there answering will be cloud

Then they'll disappear like snowflakes in an ocean

Love is forever

And we'll die, we'll die together

and lie, I said never

Cause our love, can be forever

Now, I've got nothing left to lose, you take your time to choose,

I can tell you now without a trace of fear that

My Love, will be forever

And we'll die, we'll die together

And live, I will never

Cause our love, will be forever

You try to tell me that you love life

and find another way to kill life

You try to tell me that you love life

then find another way to kill life

You try to tell me that you love life

and find another way to kill life

to tell me that you love life

and find another way to kill

Wanting

and needing

Kill life

Wanting

Love life

and needing

Kill life

You try to tell me that you (enemy!) love life

Chapter 3

"The Funeral Of Hearts" by H.I.M.

"The Funeral Of Hearts" by H.I.M.

Love's the funeral of hearts

And an ode for cruelty

When angels cry blood

On flowers of evil in bloom

The funeral of hearts

And a plea for mercy

When love is a gun

Separating me from you

She was the sun

Shining upon

The tomb of your hopes and dreams so frail

He was the moon

Painting you

With it's glow so vulnerable and pale

Love's the funeral of hearts

And an ode for cruelty

When angels cry blood

On flowers of evil in bloom

The funeral of hearts

And a plea for mercy

When love is a gun

Separating me from you

She was the wind, carrying in

All the troubles and fears you've for years tried to forget

He was the fire, restless and wild

And you were like a moth to that flame

The heretic seal beyond divine

A prayer to a god who's deaf and blind

The last rites for souls on fire

Three little words and a question why

Love's the funeral of hearts

And an ode for cruelty

When angels cry blood

On flowers of evil in bloom

The funeral of hearts

And a plea for mercy

When love is a gun

Separating me from you
